Tokenbridge Fast Confirmation Rule Audit

This document presents the findings of a smart contract audit conducted by Côme du Crest for Gnosis Ltd.

Scope

The scope includes [PR#19](#) of [gnosischain/tokenbridge](#). The last commit of the PR at the time of review was [0x19009b5](#).

Context

The goal of the PR is to enable Fast Confirmation Rules (FCR) to bridge validators. FCR is a new confirmation rule for block confirmation that holds as long as 75% of the stake is honest and network is undisturbed. The rule is solely implemented in clients as a new endpoint response to `eth_getBlockByNumber("safe")`.

With FCR enabled, validators will validate bridge transfers much faster than when waiting for finality (estimated 13 seconds instead of 13 minutes).

Status

The report has been sent to the core developer.

No issues have been found.

Legal Information And Disclaimer

1. This report is based solely on the information provided by the audited project, with the assumption that the information provided is authentic, accurate, complete, and not misleading as of the date of this report. Gnosis has not conducted any independent enquiries, investigations or due diligence in respect of the Company, its business or its operations.
2. Changes to the information contained in the documents, repositories and any other materials referenced in this report might affect or change the analysis and conclusions presented. Gnosis is not responsible for monitoring, nor will we be aware of, any future additions, modifications, or deletions to the audited code. As such, Gnosis does not assume any responsibility to update any information, content or data contained in this report following the date of its publication.
3. This report does not address, nor should it be interpreted as addressing, any regulatory, tax or legal matters, including but not limited to: tax treatment, tax consequences, levies, duties, data privacy, data protection laws, issues relating to the licensing of information technology, intellectual property, money laundering and countering the financing of terrorism, or any other legal restrictions or prohibitions. Gnosis disclaims any liability for omissions or errors in the findings or conclusions presented in this report.
4. The views expressed in this report are solely our views regarding the specific issues discussed within this report. This report is not intended to be exhaustive, nor should it be construed as an assurance, guarantee or warranty that the code is free from bugs, vulnerabilities, defects or deficiencies. Different use cases may carry different risks, and integration with third-party applications may introduce additional risks.
